

10,000 WAYS TO REDUCE YOUR COSTS

““ We understand our customer’s needs and the demands placed on care providers who need to reduce costs and at the same time improve standards. ””

PRODUCT RANGE

With over 10,000 good quality fit for purpose products featured in our annual catalogue, you will never be without choice at Countrywide Healthcare.

We have an extensive range of branded and own label products from nursing/medical consumables and equipment to housekeeping products and furniture.

We source our products to meet our customers needs. As well as placing a strong importance on our customer rapport, we have built solid relationships with key suppliers.

Hospice Quality Partnership have chosen **Countrywide Healthcare** as their preferred Supplier to guarantee you as a HQP partner receive...

- **Best** Prices
- **Best** Products
- **Best** Customer Service

“Balhousie selected Countrywide last summer through a rigorous tender process as our new supplier of nursing and janitorial products; we have been pleased with how Countrywide managed the implementation process and how well the transition went from our previous supplier. Anticipated savings have materialised in line with expectations and we have been pleased with how the first year has gone with Countrywide.”
Balhousie Care Group

2002/249

We appointed Countrywide Healthcare as our nominated and approved supplier - in essence as a “one stop shop” supplier of medical/laundry/janitorial/continence and light catering equipment. This has proved extremely successful given that we have locations throughout the UK and Northern Ireland where currently we have some 365 locations interacting with Countrywide and we rely on their proven ability to stock and deliver on time the various goods as requested. I can wholeheartedly endorse their services.
